

**For over 10 years, Spectrum has been manufacturing & improving products specifically for the warehouse industry.**

**We have a wide range of warehouse storage products in sizes to fit nearly every application for secure storage of your products.**

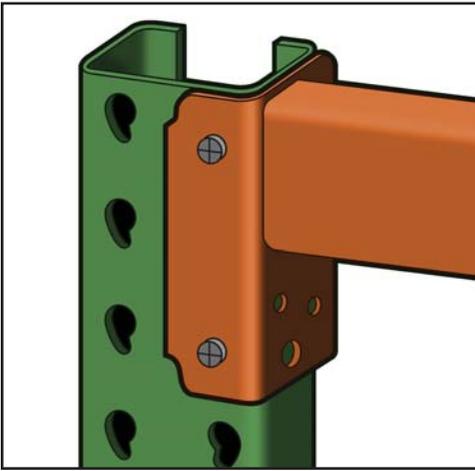

**Offering the fastest delivery on the highest quality products in the industry. And all pallet rack products are interchangeable with other brands.**

## **About Spectrum Products**

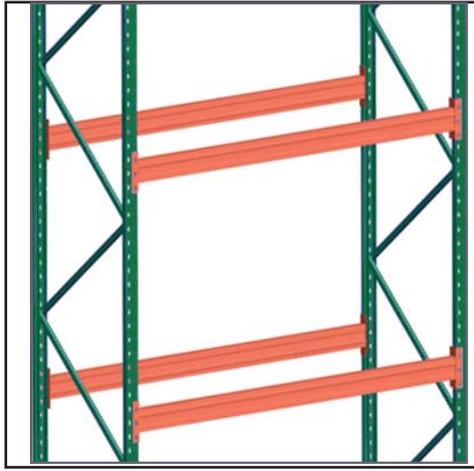

Spectrum material handling storage products are reviewed and tested based on ANSI, MHIA, and RMI guidelines ensuring the most reliable, cost-effective solution, even under stringent seismic and code applications. Preliminary calculations are also available at no additional charge. Spectrum products were designed to easily integrate with other leading manufacturers.
